## Life

How life could be described? One time I watched a classical orchestral concert which I've been waiting for a long time. While enjoying the beautiful melody, suddenly it occurred to me that I forgot to lock the car door. I was shocked. On one hand comfortably enjoying the adorable concert, on the other hand worrying about the unlocked car door.

That's life. While enjoying the beautiful life with the beloved, enjoying the fruit of hard work... Out of sudden undesirable things happen. Lost of precious thing, death of the loved one, layoff and so on. That's life.

What do I do? I was careless forget to lock the car door. But I decided to enjoy the concert and keep praying to the Lord. I asked that I can still enjoy the concert and if I may, return home with my car.

Right. I enjoyed the concert to the end and return home with my car.
